## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is the inclusion of a gamma correction circuit, coupled to a common gray-scale voltage generating circuit and individual gray-scale voltage generating circuits, where the gamma correction circuit generates a corresponding pixel voltage based on the common gray-scale voltages and the corresponding individual gray-scale voltages of a corresponding color, which is not found singularly or in combination in the prior art..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
